

Sur-Prep 5677

Description

Sur-Prep 5677 is a fast evaporating solvent blend that works on both oil and oil-bonded contaminants. This product is used for preparing critical surface areas prior to painting or bonding as well as electrical contacts. Sur-Prep 5677 helps coatings and sealants adhere to aircraft substrates by efficiently solvating a broad range of contaminants from the substrate surface.

Application

Apply product to the surface to be cleaned. Sur-Prep 5677 will dry completely and not leave a residue. It can be used for contact cleaning as well as general degreasing.

Physical Properties

- Flash Point: 0°F
- Density (lbs/gal): 5.9
- Polycarbonate Compatibility No crazing
- Acrylic Compatibility No crazing
- Hydrogen Embrittlement No failures
- Compatibility with Painted Surfaces Pass

MilSpec

Other

Features

- Fast Drying
- Broad Solvency Range
- Penetrates to remove soils and greases
- Works on electrical components
- Spray-Any-Way Spray Valve
- No chlorinated solvents
