

ZC-026UV

Product description:
**AVIONIC CORROSION PREVENTIVE
MEDIUM-SOFT FILM**

FEATURES:

- ▶ A medium to heavy duty water displacing, thin film, corrosion preventive compound

AVAILABLE PACK SIZES:

- ▶ Quarts (010357]
- ▶ Gallons (005460]
- ▶ 5 Gallon Pail (004734]
- ▶ 55 Gallon Drum (009138]
- ▶ Special Packaging Upon Request]

KEY BENEFITS:

- ▶ Does not harm paints, plastic, or insulation
- ▶ Protects electrical connectors from corroding
- ▶ Prevents disruption contact between connectors
- ▶ Contains fluorescent dye so that user can quickly identify the material in applicable areas under UV light
- ▶ Provides superior protection to avionic connectors and components and has lubricating properties to prevent fretting corrosion

ZC-026UV

Product description:

AVIONIC CORROSION PREVENTIVE MEDIUM-SOFT FILM

KEY BENEFITS:

- ▶ Protects cables and surfaces as well as other interior and exterior aircraft surfaces
- ▶ Can be used for initial protection during shipment and storage of items and for in-service treatment of critical areas
- ▶ UV dye fluoresces across the entire spectrum of UV light
- ▶ The cured film of **ZC-026UV** can withstand temperatures as low as -55°C and as high as 85°C continuously
- ▶ The coating withstands temperatures up to 105°C for only 500 hours cumulative

SPECS:

- Mil-PRF-81309H Type II & III Class 1

APPLICATIONS:

- ✓ Use **ZC-026UV** on highly critical metal surfaces and avionic components
