## AIRCRAFT CLEANERS & DISINFECTANTS

### ZIP-STRIP™ 125M

### *Product description:* **WATER RINSEABLE CIC REMOVER**

#### **SPECS:**

- Airbus AIMS 09-00-002
- Boeing D6-17487

#### **APPLICATIONS:**

- ✓ **Zip-Strip™ 125M** can be applied by aerosol, airless, air-assist, dipping, or brushing.
- ✓ The material should be applied at a thickness of 2 to 7 mils, depending on the thickness and age of the material to be removed.
- ✓ Allow material to dwell for 5-10 minutes (10-20 minutes for heavy duty removal) and then pressure spray or rinse off.
- ✓ Do not allow material to dry on the surface. If drying commences, apply a light film of additional **Zip-Strip™ 125M** and rinse off.
- ✓ The **Zip-Strip™ 125M aerosol** can be used in conjunction with the **Formit®** extensions to provide targeted spray to areas that may be difficult to reach but need to be cleaned.
- ✓ Handle effluent accordingly because the contaminants that **Zip-Strip™ 125M** removes may not be biodegradable
