### AERODIS® 7127

## Product description: DISINFECTANT

### KEY BENEFITS:

- Suitable for use on aircraft lavatories, galleys, windows and transparencies, tray tables, service trays, overhead bins, arm rests, head rests, vinyl walls, bulkheads, stainless steel, porcelain, floors, and any other hard surfaces on aircraft

EPA expects all products on List N to kill all strains and variants of SARS-CoV-2. Genetic changes to the virus do not impact the efficacy of disinfectants. List N disinfectants work by chemically inactivating viruses. The difficulty of killing a virus depends on its physical features, and the recent mutations to SARS-CoV-2 have not changed the basic physical properties.
