

AIRCRAFT CLEANERS & DISINFECTANTS

JET-BRITE™ 550

Page 1 of 3

Product description: **AIRCRAFT POLISHING PASTE**

FEATURES:

- ▶ A light pink tan homogeneous paste

KEY BENEFITS:

- ▶ Contains no abrasives or corrosives
- ▶ Contains no wax, silicone, or polymers that can cause post operation coating problems
- ▶ Leaves no residues or foreign matter on substrate
- ▶ Impervious to fuels, oils, and hydraulic fluids
- ▶ Eliminates need to use harsh compounds that can scratch and dull fine finishes
- ▶ Cleans, removes oxidation, and restores luster to aluminum and painted surfaces in a one-step process
- ▶ **Jet-Brite™ 550** 's nonabrasive formulation allows it to be safely used on bare metal and painted surfaces, fiberglass, plexiglass, and molded plastic
- ▶ Imparts oxide resistant finish when properly applied

SPECS:

- AMS 1650B Type 2 paste
- Boeing CSD#1
- Boeing D6-17487 Rev L

Rev: 29092E
10-20-2025

JET-BRITE™ 550

Page 2 of 3

Product description: **AIRCRAFT POLISHING PASTE**

APPLICATIONS:

- ✓ Apply **Jet-Brite™ 550** to small sections with a soft cotton cloth or buffing wheel
- ✓ Rub lightly so that the removal of oxide and carbon buildup will be visible
- ✓ Use a clean and soft cotton cloth or buffing wheel to remove the paste while the cloth or buffing wheel is moist
- ✓ Buff to a high luster finish
- ✓ Excellent results can be obtained on leading edges, spinners, windows, galleys, lavatories, hardware, and carbon stained areas
- ✓ **Jet-Brite™ 550** should be applied over new paint only after the paint has fully cured
- ✓ Please consult your paint supplier for guidelines on full cure of the paint to be covered with **Jet-Brite™ 550**
- ✓ Store **Jet-Brite™ 550** at 40°F- 100°F (4.4°C - 37.8°C) in a well-ventilated place. Keep **Jet-Brite™ 550** in the original unopened containers and keep containers closed when not in use.
